

RULES

PIXART 29/10/2025

1. Summary

The main objective in PIXART is to draw a certain figure with the virtual robot, which will be informed the day of the event. Each team will solve the challenge and send a video with the solution.

Prior to the event participants will be able to acquire the basic knowledge necessary to carry out the task, in case the team needs to learn how to use the tool that will be used for the challenge.

It is recommended to check internet access and bandwidth in advance, as well as the devices (Computer, Tablet, Cell phone, etc.) that will be used to complete the assigned task.

Each team will solve the challenge the day of the event, during a live streaming. The winner will be defined by the time used to write the code and its execution. Time penalties will be added, if any apply, to obtain a final time.

2. Team

The competition is only for kids age 12 and younger. Each team can have up to 3 team members and a mentor. All team members should comply with the age requirement. The mentor must be 18 y/o or older, and will act as the one responsible for the team members actions.

3. Registration

All the information regarding registration can be found in <http://robojam.live/>

4. Rules Clarification

All those circumstances not foreseen in this set of rules, will be up to the judges and/or the tournament staff to solve. They will have the final decision on it and cannot be appealed.

By registering the team and paying the registration fee, the team understands and accepts all the rules presented here.

PIXART 29/10/2025

In case of being disqualified, or not showing up to the event, there will be no reimbursement of any kind for the team.

Rules could be modified until the registration due date. However, if there is any need to clarify one of the rules before the event, the teams will be notified

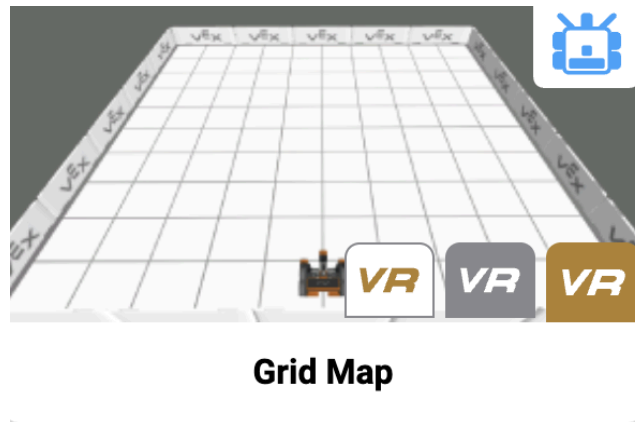

5. Challenge Setup

The basic code necessary to carry the challenge out will be available through our [tutorials](#).

6. Sim Platform

Vex Code VR will be used to solve the given challenge <https://vr.vex.com/>

7. Challenge

- a) For the challenge, the team will be given a drawing or a series of figures to be drawn, using the Pixel Art technique. It can vary between shapes, numbers or letters. The basic code necessary to carry them out will be reviewed in the previous training. The winner will be defined by their overall time (coding + execution) and time penalties will be added, if any apply, to obtain a final time.
- b) The map called **NUMBER GRID** will be used.
- c) The team must solve the challenge and submit a video of the solution. For this, the team must record the computer screen while the program is running. At least one member must explain how they solved the challenge (without showing themselves on camera), while the

PIXART 29/10/2025

program is running. The team must show also, the blocks that are requested in the technical specifications of the challenge, during the execution or at the end. Failure to comply with any of the technical aspects will incur in a time penalty, for each of the missing elements.

- d) The length of the video is limited to a maximum of 3 minutes. If the video has a longer duration, a time penalty will be assigned.
- e) You can use any tool to record the screen and the video, you can even record the computer screen with a cell phone. <https://www.loom.com/> or <https://screencastomatic.com/> is suggested for video recording. It is recommended to test the tool that will be used for this purpose in advance.

8. Competition

- a) The challenge should be solved only by the team members. The mentor will not have an active role in solving the challenge. The mentor can only advise them by answering questions, but will not intervene at any time
- b) The team will be able to access the challenge at the time and day indicated on the event page. The team is required to attend the captains meeting scheduled 30 minutes before the Live Streaming starts. Failure to connect to the meeting prior to the start of the challenge will give the team a time penalty. The link for the meeting will be sent in advance to the captains by email.
- c) The challenge must be completed in a maximum time of 90 minutes. Videos sent after that time will not be considered.
- d) The day of the event, the form to send the video will be enabled. In the enabled form, the time of the project submission will be recorded, which will define the initial delivery time of each project.
- e) Videos cannot have background music due to copyright restrictions. Videos sent with background music will not be considered.
- f) The final time of each team will be sent within 8 hours after the end of the time allowed for the challenge, to the email registered by the team's captain. This time will include observations and penalties if applicable.
- g) The captain has a maximum period of 2 hours, from the moment in which the final time for the test is sent by the organization, to answer in case they need any clarification, or they disagree with the final time assigned. The final decision on any claim is at the discretion of the judges and / or the organizer, who are considered the last instance in the resolution of this situation and their decision is final, cannot be appealed.
- h) The final results will be published the next day the latest, on the event website and/or during the streaming for the challenge videos.

9. Penalties

Teams may receive a time penalty for not complying with any of these regulations:

- a) Not complying with any rule established in this rule book.
- b) Unable to review the video due to technical problems.
- c) Breaking any of the rules that might have a time penalty.

A 5 minute penalty will be assigned for each foul committed in the technical aspects requested in the specific challenge or for breaking any other rule.

The judges and / or the staff can disqualify any team, at any time, for any fault that in their opinion is serious and is against the respect, ethics and education that is sought in the event. This includes, but is not limited to, any of the following situations:

- a) Fraud in the information shared with the organization or in the competition
- b) Dishonesty in the challenge, deliberately breaking the rules.
- c) Disrespect to judges or participants, during the competition or in the comments during the live streaming.

10. Claims

- a) The captains can file a claim regarding their final time, following the procedure established previously (see 8g)
- b) The final decision on any claim is at the discretion of the judges and / or the organizer, who are considered the last instance in the resolution of this situation and their decision is final, cannot be appealed

11. Prizes

The first 3 places will be awarded with credentials for a ROBOJAM event. All other teams can request participation certificates.

Other additional prizes, such as cash prizes or sponsor gifts, will be assigned and communicated by the organizer at his own discretion, after the registration due date, but before the competition date.
